

# LIQUID FILLING MACHINE

## Features :

- The series of machines, which are with a more simply reasonable structure, high accuracy and more convenient operation, are applied to medicine, daily necessities, foodstuff, pesticide and some special industries, thus is an ideal filling machine for the high viscosity liquid and ointment. This machine is reasonable in design, compact and exquisite in model, and convenient operation, the pneumatic part adopts the pneumatic components of Germany FESTO and Taiwan AirTac. The part of contacting materials is mode of stainless steel, which is complied with GMP. Both filling volume and speed can be adjusted at will, as well as the high accuracy in filling. Filling head adopts anti-leakage, anti-draw bench and lifting filling device. This series of filling machines includes the single type, double type and against exploding type.

## G1WY

- Rated Air Pressure: 4-6Kg
- Filling Speed: 0-50bottles/min
- Filling Quantity: 500, 1000, 25000 ml
- Filling Accuracy:  $\pm 1\%$  -  $\pm 2\%$
- Filling Range (ml): 300-2850
- Voltage: 220V  $\pm 5v$
- Power: 10W
- Current: 1A
