

DOUGH SHEETER

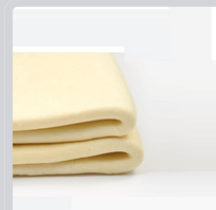

LSP-520E

- Motor power: 0.75 kw
- Voltage: 240 V / 50 Hz
- Rating input power: 1.1 kw
- Width of roll: 520 mm
- Rotating speed of roll: 133 rpm
- Overall size : 2050 x 870 x 640 mm
- Weight: 145 kg

Features :

Dough sheeter is driven by a motor, and the sheets are pressed bidirectionally. It runs smoothly and its operation is safe and reliable. It has many features, such as wide-ranging applications, easy operation, high efficiency etc. Using range: crisp skin series, crisp cake series etc. as well as pressing paste. Oiliness type design, the wheels is chrome hardening treatment, no adhesive to the paste and not easy to damage. Imported components, high grade steel, the pressing wheel has been specially treated, don't adhesive the paste and not easily damage. Professional design to the processing wheels and the blades, the thickness of the paste sheet reaches 1mm. Folding structure, saving space and easily moving
