

GAS DEEP FRYER MACHINE

ATC-17C

ATC-17C

- Capacity: 17Liter
- Gas Pressure: Low Pressure
- Temperature: 160-220° C
- Dimension: 550 x 600 x 420 mm
- Weight: 20 kg

Stable quality, there is a switch of oil leak in the front, the temperature of the oil above the heating pipe is 180° C, but the temperature of the oil below the heating pipe is 80° C, there are eight heating pipe, small electric ignition.

☑ Used Gas: LPG gas (with low -press adjust valve)

Features:

- Switch of temperature & ignition material level is same as Japanese Fryer.
- Nice design of heater, you clean easily.
- Easy to use oil-leak switch.
- CNC processing, graceful modeling & quality proof.

ATC-23C

ATC-23C

- Capacity: 23 Liter
- Gas Pressure: Low Pressure
- Temperature: 160-220° C
- Dimension: 550 x 600 x 800 mm
- Weight: 34 kg
