

# COTTON CANDY MACHINE WITH TROLLEY

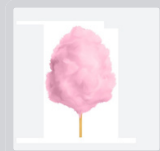

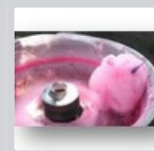

Cotton candy is one of those amazing foods that seems like magic. With this equipment, you could make it easily!

Cotton Candy is made from floss Sugar. The sugar is first melted to a liquid. The cotton candy machine spins the liquid sugar and forces the liquid through tiny holes. When the sugar pass through the tiny holes it is shaped and cooled and becomes a solid again. The center of the cotton candy machine soon becomes filled with tasty sugar threads, which are collected and served on a paper cone.

#### Features :

- Cotton candy machine with trolley
- Stainless steel
- Easy to operate

#### ET-MF05 (Ⓢ520)

- Size: 520 x 750 x 910 mm
- Volts: 220V/50Hz
- Power: 1030W
- Out Put: one unit/30 seconds

#### ET-MF05 (Ⓢ720)

- Size: 720 x 750 x 910 mm
- Volts: 220V/50Hz
- Power: 1030W
- Out Put: one unit/30 seconds
