

UNIVERSAL GRINDER MACHINE

This machine using high-quality 304 stainless steel and advanced motor is mainly used in chemical materials, herbal medicines containing roots, branches . And massive class materials, a variety of high oil content of food, whole grains, and other hard, brittle materials.

Features:

- UG series is widely used for crushing various kinds of materials for food and pharmaceutical industry.
- The structure is simple and easy to clean and operation.
- Made of stainless steel and confirmed to GMP.
- Stable running and high efficiency
- Easily removing or change screen to control the powder's coarse and fine.

UG-18

- Material: 204 S/STEEL
- Voltage: 380V
- Power: 2.2KW
- Spindle Speed: 4200 R/M
- Degree of Fitness: 10-120mm
- Output: 10-120(kg/h)
- Dimension: 480 x 520 x 1040mm
- Weight: 80kg

UG-25

- Material: 204 S/STEEL
- Voltage: 380V
- Power: 5.5KW
- Spindle Speed: 4200 r/m
- Degree of Fitness: 30-120mm
- Output: 30-120(kg/h)
- Dimension: 750 x 600 x 1260mm
- Weight: 180kg

UG-32

- Material: 304 S/STEEL
- Voltage: 380V
- Power: 7.5KW
- Spindle Speed: 4200 r/m
- Degree of Fitness: 10-120mm
- Output: 50-120(kg/h)
- Dimension: 780 x 700 x 1350mm
- Weight: 260kg

UG-35

- Material: 304 S/STEEL
- Voltage: 380V
- Power: 11KW
- Spindle Speed: 4200 r/m
- Degree of Fitness: 70-120mm
- Output: 50-120(kg/h)
- Dimension: 800 x 900 x 1550mm
- Weight: 320kg
