

DIGITAL FLOOR SCALE

Features:

- The digital indicators Snowrex PS-PLUS are suitable for all bench and floor scales. These indicators are available in two versions – for internal weighing applications (PS-PLUS) and approved OIML Class III, legal for trade (PS-PLUS A).
- The digital indicators Snowrex PS-PLUS and PS-PLUS A support tarring over full weighing range, tare setting via keypad, printer connection, weight note printing and data communication with PC. The technical specifications concerning data communication and the relevant software are available on request.
- Mains power supply or internal accumulator operation. The accumulators are being automatically charged when the scale is connected to the mains.

Functions:

- On / Off
- Zeroing
- Tarring
- Tare setting from numeric keypad
- Date input - Optional input of weighing ID
- Data communication (PC and printer)
