DIGITAL COUNTING SCALE

Features:

- **Over resistant construction:** The special design holder for load cell to protect load cell from over load or side load impacts.
- **Easy confirmation of package components:** This series can be used to check whether the proper number of components have been boxed or bagged.
- **Auto zero:** Slight variations or drifts of the zero point is automatically adjusted by the auto zero function (zero tracking). This feature ensure reliable weighing and high degree of accuracy.
- **Sample weighing systems:** There are two sample setting methods easily to choose from quantity setting or unit weight setting.
- **Membrane Switch:** Flat type keyboard under the display unit is easy to operate and prevents entry of water, oil or dirt.
- **Special functions:** Set the fix weight to tare the weight of containers constantly. Flickering if shortage of samples or insufficient unit weight. Memory system to accumulate total quantities from respective operations

SRC-H-3

- Brand : **SNOWREX**
- Capacity: 3kg
- Graduation: 0.1g
- Pan Size: 240 x 280 mm
- Power: AC Adaptor
- Environment: 0°C - 40°C

SRC-H-6

- Brand : **SNOWREX**
- Capacity: 6kg
- Graduation: 0.2g
- Pan Size: 240 x 280 mm
- Power: 9V/500Ma
- Environment: 0°C - 40°

SRC-H-15

- Brand : **SNOWREX**
- Capacity: 15kg
- Graduation: 0.5g
- Pan Size: 240 x 280 mm
- Power: 9V/500Ma
- Environment: 0°C - 40°

SRC-H-30

- Brand : **SNOWREX**
- Capacity: 30kg
- Graduation: 1g
- Pan Size: 240 x 280 mm
- Power: 9V/500Ma
- Environment: 0°C - 40°
