

Product Description:-

Mono block is a weighing system that is used in livestock scales, especially Bass Farms, Courses, Associations etc., with a baklava sliced sheet metal top, portable cage, indicator (indicator) option with four capacity CRCs.

AEW series of high-precision analog-digital conversion technology and special software anti-vibration technology, AC and DC, suitable for electronic scales, electronic platform scales such as the use of 1 to 4 sensors static weighing system. The internal rechargeable battery can be used for an average of 90 - 100 hours.

Power Source:-

Input: AC 120 ~ 240V
Output: DC 10V/600mA

Power Consumption:-

1. Main System: Approx. 18mA
2. Main System with Backlight: Approx. 32mA
3. Main System with Backlight and RS232: Approx. 48mA
4. The internal rechargeable battery can be used for an average of 90 - 100 hours.
5. Easy-to-read LCD display.
6. Can see the sum of the weighing's made
7. Tare, zeroing feature
8. Sound warning between two weights
9. He can get tare on top.

Specification :-

Model	AEW-1.5LA	AEW-2LA
Capacity	1.5 TONS	2 TONS
Division	100G	
Platform Size(mm)	3FT x 5FT	

** Designs and specifications are subject to change for improvement without prior notice.*
