

CHILI GRINDER MACHINE

Features:

- Our machine has many multinational patents. We originate to use three-point adjustment of stainless steel screw spring nut and another six-point fine tuning for the proper adjustment of grindstones. It can be easier to adjust and never rust or oxidize to get stuck even after long time use.
- We are the only one to use aluminum-alloy accurate die-casting of unity forming all over the country.
- To use import ultra-high-level bearing and special motor. It's safe and wear-resisting.
- Super horsepower, high-speed grinding fine rice-grinding, small volume and convenient for carrying.
- Provide electric power switch and electric wire clamp, it's safe and convenient.

Application:~

- Apply to make soybean milk rice milk mung bean paste and chili sauce...

MH2000-5AC

- Power: 0.75kw
- Voltage: 230V 50Hz
- Productivity: 30~70Kg/h
- Dimension: 500 x 280 x 1100mm
- Weight: 29kg
